Curriculum File

1.1. Implementation Plan

1. Representation in University Bodies: Four members of the faculty have representation in various academic bodies of Kannur University. Four of them are Chairpersons/ Members of Board of Studies of Kannur University. They have made commendable contributions in these capacities in the restructuring and reframing of the curriculum.

2. Syllabus implementation-

a. Workload distribution: PG and UG syllabus were divided among seven teachers with 16-

17hrs each

b. Method of Teaching: Using chalk and black board, ICT enabled classroom

c. Participatory Learning Activities

a) Students' participation in the form of field survey and other activities are as follows

No	Activity	Objective	Outcome
1.	Herbarium preparation	To help students the accurate identification of plant species, supports scientific research, aids in environmental conservation efforts,	It allows for the accurate identification of plant species, supports scientific research, aids in environmental conservation efforts, and serves as an educational tool for students and the public interested in botany.
2.	Seedling raising	To train students about gardening, horticulture, and agriculture	Students understand an essential step in gardening, horticulture, and agriculture to ensure healthy and robust plant growth.
3.	Vegetable garden preparation	To train the student about vegetable cultivation and its importance	Students became master in vegetable garden that is well-organized, productive, and more resilient against common gardening challenges.
4.	Indoor garden and ornamental plant preparation	To train the student about garden and its importance	They became expert in creating and maintaining a indoor garden filled with beautiful ornamental plants, enhancing the beauty and ambiance of your living space
5.	Mushroom Cultivation	1. To familiarize the student about mushroom, its importance and	1] Students will be proficient in the techniques of mushroom cultivation.

		cultivation.	2] Environmental benefits of mushroom cultivation, such as waste recycling and soil improvement.
6.	'Ostendo' work		Participating in a exhibition offered students a holistic learning experience that encompasses science, creativity, communication, and personal development. It inspired a lifelong interest in plants and the natural world while equipping students with valuable skills for their academic and professional journeys.
7.	Herbarium catalogue preparation	1] Create a systematic and organized collection of plant specimens that serve as a valuable resource for scientific research, education, and conservation.	1] Herbaria serve as a reference library for plant taxonomists, providing a physical record of plant species, their characteristics, and their variations over time and geography. 2] Herbarium specimens can serve as historical records, documenting changes in plant populations and distributions over time, which can be valuable for climate change research and understanding environmental history.
8.	Diversity study	documenting plant biodiversity, studying plant taxonomy, and preserving plant species for future generations	It offered students a rich and holistic educational experience, encompassing scientific knowledge, environmental awareness, and practical skills that are valuable both academically and in terms of personal growth and responsibility for the natural world.
9.	Water analysis	For environmental awareness	Water analysis provided a valuable educational experience that combines scientific knowledge with environmental awareness and practical skills, preparing students to be more informed and responsible citizens.
10	Mangrove conservation	To train the student about mangrove seedling raising, cultivation, ecology and importance	Students who engaged in mangrove conservation gain not only knowledge and skills but also a sense of responsibility for the environment and the communities that depend on these ecosystems.

			They become better equipped to address environmental challenges and contribute to the sustainable management of natural resources.
11.	Algal collection	To familiarize the student about algae, its ecology and importance	Students will have a solid foundation in algal biology, including the life cycle, structure, ecology and classification of algae
12.	Fungal collection	To familiarize the student about fungi its ecology and importance.	1] Students will have a solid foundation in fungal biology, including the life cycle, structure, and classification of fungi. 2] They will be able to explain the ecological importance of fungi in nutrient recycling and their role in various ecosystems.
13.	Bryophyte collection	To familiarize the student about bryophytes and its ecology, importance etc	Students will have a solid foundation in bryophyte biology, including the life cycle, structure, ecology and classification of bryophyte.
14.	Pteridophytes collection	To familiarize the student about Pteridophytes, its ecology and importance	Students will have a solid foundation in pteridophyte biology, including the life cycle, structure, ecology and classification of pteridophyte.
15.	Forest product submission	To accustom the student about forest products, its availability and importance	Students became aware of environmental impact, application and availability of forest product
16.	Kaipad paddy cultivation	To train the student about paddy cultivation, its ecology and importance	It not only imparted valuable agricultural skills but also fosters a sense of responsibility towards cultural heritage and sustainable farming practices.
17.	Book review	To familiarize various books	It enabled students to familiarise various subject related book, its contend, method of writing, method of reviewing a book etc
18.	Journal review	To familiarize botanical journals	Students became aware of preparing a manuscript in journal.
19.	Medicinal plant documentation	To train the student about paddy cultivation, its ecology and importance	It enable them to understand the medicinal plants, its parts used, importance, ecological role and impets
20.	Documentation of invasive plants	To train the student about paddy cultivation, its ecology and importance	It provided a a holistic and practical understanding of ecological and environmental issues while fostering skills and values that can benefit

			them personally and professionally. It also contributed to the broader effort to mitigate the impact of invasive species on ecosystems.
21	Documentation of edible tree fruits	To acquaint the student about edible tree species, its ecology and importance	It offered the students a wide range of educational and practical benefits, fostering a deeper understanding of both the natural environment and sustainable food sources.
22	Pollen analysis	To apprise the student about pollen grains, its source, availability and importance	It raised awareness about the importance of preserving biodiversity and understanding the historical context of environmental changes. students became familiar with the diversity of plant species in a given area

d. **Student Seminar-** each student presents a seminar on a given topic as a part of the curriculum.

e. **Assignment:** Students prepare and submit assignments for each subject in the given format and is assessed for calculating their internal marks.

f. **Viva-voce-** Student attend viva as a part of the curriculum in each paper in first and second semester.

3. Proper attendance monitoring

4. **Internal exam:** Internal exams are conducted twice or thrice in each subject as part of continuous assessment

5. **Model exam** is conducted in every semester level before the University examinations.

6. **PTA Meeting:** Parent –Teacher meeting are held in each semester so as to enable the parent to understand the status/ position of their child.

7. **Tutorial System:** Tutorial meetings are held once a week and tutors maintain a close relationship with all the students under his tutelage. Tutor meticulously monitors the curricular and co-curricular output of each student and provides encouragement.

8. **Seminar/ Workshop/ Conference:** Department organize Seminar/ Workshop/ Conference on relevant topic related to curriculum during every academic year.
9. **Study tour/ Field visit/ Nature Camp:** As the Study tour/ Field visit/ Nature Camp are mentioned in the syllabus, the Department organizes it during every academic year.
10. **Result Analysis:** Detailed analysis of University results and identifies the strengths and weaknesses of each student. Necessary instructions and guidance to uplift the weaker students and provide incentives to meritorious students were taken by the department.
11. **Remedial coaching:** It provides continuous training in difficult subjects for students who lag behind in their studies. It has proved very helpful for the slow learners.
12. **Felicitation/ Endowment Award Distribution:** Department organize Felicitation, Endowment award to honor and congratulate students who achieve high grades in university examination .Also, to encourage weak students.

DEPARTMENT OF PHYSICS

Curriculum File

1.1 Implementation Plan

1. Syllabus Implementation

- Workload distribution: The total syllabus in PG and UG is divided among seven teachers. Total number of hours in the department is 113. So 1 hour is excess after equal division of 16 hours.
- Method of teaching: ICT enabled classrooms, Chalk and Board method, Lecturing method and Practical classes.
- Student Seminar: PG students present seminars on given topics in each paper and also they are obliged to conduct General seminars in Physics field. It is assessed for internal mark.
- Assignment: Both PG and UG students prepare assignments in every paper and submit. It is assessed for internal mark.
- Students attend Viva Voce in the final year P G in General Physics and Project,
- Project: Students submit Project Report after doing Project in the Department or outside College or University.
- Participatory Learning activities

Sl No	Activity	Objective	Outcome
1	Sky Watching	Students watch Astronomical objects with the help of Telescope	It helps them to see and study about Celestial objects. They are led to Research fields in Astro Physics.
2	Physics Exhibition	They come to know about different application fields of Physics	They construct different science models and correction circuiteries. And also how to manage such exhibitions

3	Expeyes Workshop	A practice in labworks using software	They come to know about a different method of practicals which is very useful in Future.
4	Software Projects	Expertise in Software	They become aware of new areas and interests of Software field.
5	Industrial Visit	To let students know about Different research labs and opportunities	They crave to get admission in top level institutions for higher studies and job opportunities.
6	Beyond the Horizon	Giving practice in different kinds of activities	Giving an overall skill development
7.	Extra Mile	Giving practice in Extra curricular activities like speech and quiz competitions	Enjoyment beyond Physics
8	Meet the Scholar	To give chances to meet Scientists worldwide through online	Motivating the students by familiarising worldwide labs and success stories
9	Faculty Exchange	Students can meet other teachers specialised in unique topics	Chance to get an awareness in certain subjects
10.	Student Exchange	Students can meet other Institutions	Students from TASC came to learn AstroPhysics
11	Sasthra Padham and Sasthra Jalakam	School Students can visit our Laboratories	They can watch Experiments and learn Physics well.

12	Grahan	To Practice students to give their share in different general movements	They learnt to construct glasses which can be used for eclipses
13	JAM&NET Coaching	To equip students in Competitive exams for higher studies	They qualify Exams and get admission in different Universities

2. **Internal Examination:** Internal Examinations are conducted in every subject and average of the best two is considered for CE
3. **Model Examination :** Usually conducted in every Semester before University examination
4. **Attendance monitoring:** Centralized monitoring system works in the College . Department uploads the attendance of every student properly.
5. **Tutorial System:** Tutorial meetings are conducted every week under the supervision of tutors. Curricular and co-curricular activities of the students are directed and encouraged properly.
6. **PTA Meeting:** Tutorial meetings are held in every semester and the parents communicate and discuss the problems directly with the teachers.
7. **Representation in University bodies:** Three members of the department represent different academic and administrative bodies of Kannur University like members in Board of Studies, Member in adhoc committee for PG Syllabus Revision, Chairpersons of Board of Examinations and Dean for Student Services. This makes effective participation in the concerned areas.
8. **Seminars/Workshops/Conference:** Department Organise Different Seminars/ Conferences on relevant topics.
9. **Industrial Visits:** Study tours and Industrial visits are arranged every year.
10. **Result Analysis:** Centralized Result Analysis is done every semester. Each tutor collects results of students properly and provides required data for it, Also keeps the copies of results.
11. **Remedial Coaching:** Special classes are arranged for weak students accordingly.
12. **Felicitations/Endowments:** Department arranges felicitation to honour students who achieve higher grades. An Endowment also is there for Class topper in Final Semester U G.

ACADEMIC CALENDER
DEPARTMENT OF FORESTRY, 2021-2022 ACADEMIC YEAR
1st SEMESTER 2021 ADMISSION

Particulars	Tentative Dates
Semester starting	25/10/2021
Semester orientation and Course wise introduction	25/10/2021-26/10/2021
Internal 1 (Forest, Forestry and Biodiversity)	21/12/2021
Internal 2 (Forest, Forestry and Biodiversity)	4/02/2022
Assignment submission (Forest, Forestry and Biodiversity)	23/02/22
Model Examinations	21/03/2022
Commencement of End Semester Exam	21-06-2022
Conclusion of End Semester Exam	28-06-2022
End of the Semester	28-06-2022

ACADEMIC CALENDER
DEPARTMENT OF FORESTRY, 2021-2022 ACADEMIC YEAR

2nd SEMESTER 2021 ADMISSION

Particulars	Tentative Dates
Semester starting	01.06.2022
Semester orientation and Course wise introduction	01.06.2022 - 05.06.2022
Internal 1 (Forest Ecology and Dendrology)	July first week
Internal 2 (Forest Ecology and Dendrology)	July last week
Assignment submission (Forest Ecology and Dendrology)	10/4/22
Collection and submission of Herbaria	Before June 25, 2022
Model Examinations	August last week, 2022
Commencement of End Semester Exam	27-08-2022
Conclusion of End Semester Exam	19-09-2022
End of the Semester	19-09-2022

ACADEMIC CALENDER
DEPARTMENT OF FORESTRY, 2022-2023 ACADEMIC YEAR
3rd SEMESTER 2021 ADMISSION

Particulars	Tentative Dates
Semester starting	01/06/2022
Semester orientation and Course wise introduction	01/06/2022- 02/06/2022
Parents Teachers Meeting	08/06/2022
Internal 1 (Anatomy, Structure and Properties of Wood)	13/7/2022
Internal 1 (Tree Physiology and Seed Technology)	14/7/2022
Internal 1 (Fundamentals of Wild Life Science and Conservation Biology)	15/7/2022
Internal 2 (Anatomy, Structure and Properties of Wood)	1/8/2022
Internal 2 (Tree Physiology and Seed Technology)	2/8/2022
Internal 2 (Fundamentals of Wild Life Science and Conservation Biology)	3/8/2022
Assignment submission (Miscellaneous uses of wood)	8/8/2022
Presentation (Fundamentals of Wild Life Science and Conservation Biology)	15/08/2022 onwards
Model Examinations	11/08/2022-20/08/2022
Commencement of End Semester Exam	14/12/2022
Conclusion of End Semester Exam	20/12/2022
End of the Semester	20/12/2022

ACADEMIC CALENDER
DEPARTMENT OF FORESTRY, 2022-2023 ACADEMIC YEAR
4th SEMESTER 2021 ADMISSION

Particulars	Tentative Dates
Semester starting	22/12/2022
Semester orientation and Course wise introduction	22/12/2022 – 23/12/2022
Christmas Vacation	24/12/2022 – 02/01/2023
Parents Teachers Meeting	04/01/2023
Field Visit (Silviculture Systems, Silviculture of Indian trees and Plantation Forestry)	15/02/2023 – 17/02/2023
Internal 1 (Silviculture Systems, Silviculture of indian trees and Plantation Forestry)	25/01/2023
Internal 1(Soil Science, Hydrology and Watershed Management)	27/01/2023
Internal 1 (Agroforestry, Social Forestry and Human Dimensions)	30/01/2023
Internal 2 (Silviculture Systems, Silviculture of Indian trees and Plantation Forestry)	22/02/2023
Internal 2(Soil Science, Hydrology and Watershed Management)	23/02/2023
Internal 2 (Agroforestry, Social Forestry and Human Dimensions)	24/04/2023
Assignment submission (Soils of Kerala and India)	28/02/2023
Presentation (Silviculture of Indian Trees)	01/03/2023 onwards
Practical Model	23/03/2023 onwards
Commencement of End Semester Exam	12/04/2023
Conclusion of End Semester Exam	24/04/2023
End of the Semester	31/03/2023

ACADEMIC CALENDAR 2018-2019

BSc

Details of examination	Sem I	Sem II	Sem III	Sem IV	Sem V	Sem VI
Class test -I	August 2 nd week	January 4 th week	August 1 st week	January 2 nd week week	August 1 st week	January 2 nd week
Class test -II	September 3 rd week	February 3 rd week	September 1 st week	February 4 th week	September 1 st week	February 1 st week
Model Examination	October 4 th week	March 2 nd week	October 1 st week	March 3 rd week	September 4 th week	February 4 th week
University Examination	November 3 rd week	April 2 nd week	November 2 nd week	April 2 nd week	October 2 nd week	March 2 nd week

MSc

Details of the Examination	Sem I	Sem II	Sem III	Sem IV
Class Test-I	August 4 th week	January 2 nd week	July 3 rd week	January 1 st week
Class Test-II	September 2 nd week	February 3 rd week	August 4 th week	February 2 nd week
Model Examination	October 2 nd week	March 4 th week	September 3 rd week	March 1 st week
University Examination	November 1 st week	April 2 nd week	October 1 st week	March 4 th week

Programme Details

Month	Event/Name of programme	Theme/Activity/Topic
July	Alumni lecture series-III	Water treatment
October	Chemistry association inauguration	An orientation class on 'career opportunities in chemistry'.

October	Shashtra Jalakam program of Kerala State Institute of Education Technology.	Facilitate laboratory experience to high school students as part of Talent hunt
November	International mole day'	Chart exhibition and wall magazine
December	Two day residential camp.	<ol style="list-style-type: none"> 1. The ice-breaking session 2. Case study presentation 3. Panel discussion on the topic 'current education – theory and practice',
March	National science day celebration,	An intercollegiate quiz competition-HOLO.

Department of Chemistry
Sir Syed College, Taliparamba

University Examination	November 1 st week	April 2 nd week	October 1 st week	March 4 th week

Programme Details

Month	Event/Name of the programme	Theme/Activity/Topic
August 2019	OLEANDER 2K19 (An observance of Hiroshima Nagasaki day)	Interdepartmental competitions on Tableau, cartoon drawing, case study presentation.
January	Two day Residential Camp	Panel discussion, Paper presentations, treasure hunt, motivational class etc.

March	Hygenia	<ol style="list-style-type: none"> 1. Scale up sanitizer production 2. Prepare hand wash and place at different points of the campus 3. Give hands on training to prepare hand wash. Detergent, dish washing liquids, cleaning materials etc.
October	MoU with Ayurveda Medical College Parassinikkadavu	To Estimate different components like heavy metals, oils etc in ayurvedic preparations.
November	certificate Course	Drawing different Chemical structures by software like Chesketch and Chemdraw
December	Bridge Course	Strengthen the basic knowledge in Chemistry and laboratory skills.

Department of Chemistry
Sir Syed College, Taliparamba
