

Report of the DOCTRINA – 05 **(International Webinar Series)**

Date and Time: 26-05-2020, 10 am to 11.30 am

Online Platform: Zoom

Inaugural talk: *"The atomic and molecular basis of material and life embodied in chemistry"*

Resource Person: Dr. Mangala Sunder Krishnan
Professor and Head
Department of chemistry
Indian Institute of Technology Madras

Session 2: *"Stepping into the next dimension of electrospun nanofiber design"*

Resource Person: Dr. Johnson V. John
Postdoctoral Research Associate
Mary & Dick Holland Regenerative Medicine Program
University of Nebraska Medical Center, USA

The event began with the welcome speech by Ms Shahabanu P, (Asst Professor, Dept of Chemistry) in the presence of Lt Dr. Mohammed Asraf Vazhapully (Principal), TP Nafeesa Baby (IQAC Coordinator) and Dr Abdussalam (Coordinator for Doctrina). Later Dr Fazal E (Coordinator, DOCTRINA-05) introduced the resource persons to the audience. Then the resource person, Dr. Mangala Sunder Krishnan delivered an enlightening lecture on the topic "The atomic and molecular basis of material and life embodied in chemistry". The second lecture was delivered by Dr. Johnson V. John on the topic "Stepping into the next dimensions of electrospun nanofiber design". Both sessions were followed by queries, discussions, comments, and acclaim from the audience. Online feedback was also collected from all the participants which had highly positive comments. The session was concluded with a vote of thanks from Ms Sarayu Jayadevan (Assistant Professor, Dept of Chemistry). E-certificates were distributed to all the participants.
