

1.3.2. Percentage of students undertaking project work/field work/ internships (Data for the latest completed academic year)

1.3.2.1. Number of students undertaking project work/field work / internships

HEI Input:

1418

DVV suggested Input:

821

Change Input: (Optional)

1418

Query: Value has been updated as per the no. of students in the data template provided by the HEI however it has been observed that HEI has provided the incomplete data template without the list of the students undertaking project work/field work / internships within the assessment period; HEI to recheck and provide the list of students excluding the students beyond the assessment period.

ANSWER: With reference to the query regarding the incomplete data template, we have thoroughly reviewed the provided template and have updated it as per the guidelines. We have now attached the complete list of students who undertook project work, field work, or internships within the assessment period, excluding those beyond this period.

As per Kannur University regulations, it is mandatory for all VI Semester students to complete a project as part of their degree course. Additionally, IV Semester BJMC students are required to undertake project work as part of their curriculum. Furthermore, fieldwork and report submission are integral components of the IV Semester BSc Botany and Forestry curriculum. A detailed list is attached herewith.

1.3.2 Percentage of students undertaking project work/field work/ internships (Data for the latest completed academic year)

1.3.2.1. Number of students undertaking project work/field work / internships

Report of Field Trip to Ootty – IV sem B.Com

On **08/10/2023**, , seventy-two IV semester B.Com students, accompanied by three teachers, Dr. Shanavas S M, Muhammed Salih C, and Ramseena Azeez, embarked on an educational field trip to a Tea Factory ,Chocolate Factory and Grape farm (Agro tourism) as part of their curriculum. The primary objective of the trip was to provide students with practical knowledge and insights into the operations and functioning of manufacturing units in the tea, agro-farm tourism etc.

The day began with a visit to Tea Factory, where students were introduced to the history and operations of tea production. They observed firsthand the intricate processes involved, including plucking, withering, rolling, fermenting, drying, and sorting of tea leaves. Quality control measures and packaging techniques were also highlighted, emphasizing the importance of maintaining standards in production and distribution.

In the afternoon, the group proceeded to Chocolate Factory, where they learned about the journey of cocoa beans from sourcing to the final chocolate product. The students witnessed the stages of roasting, grinding, refining, conching, tempering, molding, and packaging. Discussions with factory experts provided insights into the technological advancements and quality assurance practices implemented in chocolate manufacturing.

Throughout the day, interactive sessions and demonstrations allowed students to engage directly with industry professionals, enhancing their understanding of real-world applications of business concepts studied in their coursework. The trip concluded with a feedback session where students expressed appreciation for the practical exposure gained and highlighted the relevance of such experiences in their academic and career pursuits.

In summary, the field trip was successful in achieving its objectives of updating practical knowledge and providing valuable industry experience to the B.Com students. It underscored the importance of bridging theoretical learning with practical application, preparing students for future roles in the dynamic business environment of the food and beverage sector.

STUDY TOUR REPORT 2023-24

PG DEPARTMENT OF ARABIC

SIR SYED COLLEGE, TALIPARAMBA

A study tour for PG Second semester students was organized by the department on 05/03/2024 to Farook College. Which was accompanied by 2 faculty members of the department. The tour aimed to provide students with an opportunity to explore and learn from a different academic environment, fostering their knowledge and cultural understanding. As part of the study tour following activities were conducted.

1. Orientation session by the faculty members of Farook college
2. Cultural program and interaction with the students of Farook college
3. Discussion with faculty members on research and academic collaborations
4. Visit to the college library and resource center
5. Classroom sessions and lectures on Arabic language and literature

List of Teachers Accompanied:

1. Dr. Shabeerali KK (HoD, PG Department of Arabic)
2. Mr. Abdul Jabbar CC (Assistant Professor, PG Department of Arabic)

REPORT

6/12/2023 Day 1

On the first day, we went to the famous MIT World Peace University, which was uniquely positioned as one of the first universities across the world that offer the highest standard of professional education ingrained with the postulates of peace studies, MIT-WPU enables an inclusive culture of dignity, fairness, and respect amongst its students, grooming them into future-ready, responsible citizens of the world. We were warmly welcomed by the Department of Media Studies and Deen of the dept Mr.Dhiraj Singh sir. He told as more about the Media Studies Department, and its outcomes, vast opportunities etc. He said that in a world where communication is getting more and more visual and specialised, they bring a mix of practical rigour and instructional tools that combine relevant pedagogy and the latest innovations to give our students an edge in a highly competitive job market. They also encourage an interdisciplinary approach whereby students are enabled to learn from a mix of subjects and disciplines. MIT-World Peace University's Department of Media & Communication sees itself as a catalyst in shaping young filmmakers, visual communicators, broadcasters, editors & media leaders of tomorrow. They aim for their students to achieve positions of creative influence in whichever sphere of communication they choose. It was a beautiful interactive session with Deen

Dheeraj Singh, after the session, the other faculties including Tejaswini Mam, Rajesh Sir, Anu Mam, etc also shared their personal experiences with us about MIT. The students from the media dept including Ms.Aditi the editor of MIT Peace Express, and Ms.Monisha she is a social media content creator and an e-gamer also shared their experiences. After that the university showed their culture and love by treating us with tasty vada pav and tea. They also honoured our teachers with shall which resembles respect and gratitude. After having a wonderful evening at MIT, we bid goodbye to the media department and went to our hotel for dinner.

7/12/2023

On the second day in Pune, we went to see the Baba Saheb Ambedkar Museum which was run by Symbiosis. This memorial which is now a prominent landmark in the city of

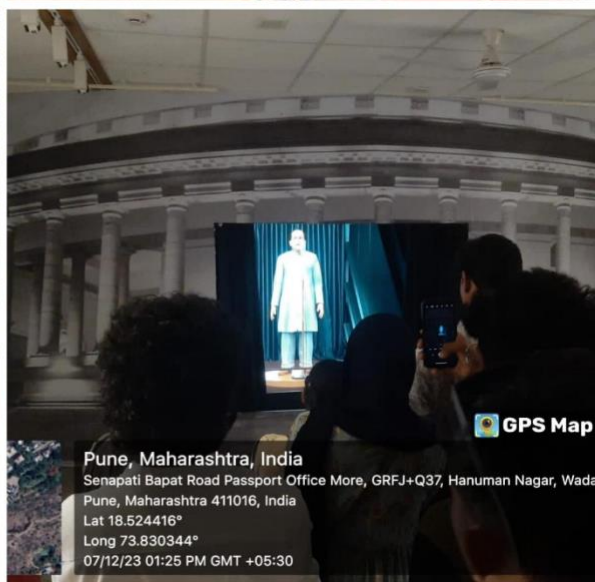

Pune was inaugurated on 26th November 1996 (the day on which the Indian Constitution was presented by Dr. Ambedkar to the President of India Dr. Rajendra Prasad). This museum has been set in fond memory of the great freedom fighter, Bhimrao Ramji Ambedkar. The museum houses a rich collection of items that Dr. Ambedkar used from his childhood until his death. We spent a quality time at the museum by watching the life of Dr. B. R. Ambedkar, the architect of India's constitution, a great social reformer, a humanist, a champion of the downtrodden and a proponent of national unity. After that we moved to the prestigious and iconic FILM AND TELEVISION INSTITUTE OF INDIA. The institute was set up by the Government of India in 1960, in the premises of the erstwhile Prabhat Studios in Pune.

The FTII Campus currently stands on the grounds of the erstwhile Prabhat Studio. Prabhat Studio was a pioneer in the business of filmmaking and shifted to Pune from Kolhapur in 1933. The archaic studios of the time, which were the production grounds for the films of Prabhat are still present and are being used at FTII. The old Studios of Prabhat are now heritage structures and FTII students continue to work at the world's oldest functioning film shooting studios. We were amazed by the studio setups in the institute. Our Guide Sachin Shinde explained to us the

functioning and setups of various studios. We seen places like Shantaram Pond,

It is a tank-like structure that had been constructed by the Prabhat Film Company to facilitate the filming of various scenes.

After spending a day at FTII, we went to Pune's iconic landmark, The Shaniwar Wada, it is a historical fortification in the city of Pune, Built in 1732, it was the seat of the Peshwas of the Maratha Empire until 1818. The palace is famous for its architectural beauty, rich history, and the tragic story of the Peshwa family. We only had less time to spend at the fort because we need to head back to Mumbai tomorrow. So we quickly headed back to our bus and enjoyed our travel to Mumbai, the city of dreams.

8/12/2023

We touched Mumbai around 1.30 am, we were all tired by travelling. Our hotel situated in Andheri named Address in. After having dinner we went to relax and sleep. We woke up early morning around 5.45 am because we got a golden

opportunity to meet Mr Rasul Pookutty sir, the Oscar award winner, who was a dear friend of our HOD VH Nishad Sir. We got this chance because our sir contacted him and he said that they could meet him at Chhatrapati Shivaji International Airport, Mumbai. He had a flight to Kerala around 7.30 so he made an opportunity to meet us. So we hurried up took a cab and headed back to Chhatrapati Shivaji International Airport, It is the second busiest airport in India in terms of total and international passenger traffic after Delhi, and was the 14th busiest airport in Asia and the 28th busiest airport in the world by passenger traffic in fiscal year 2022. We reached around there by 7.00 am, and after waiting some time we met Rasul pookuttyy Sir, the winner of the Academy Award in REAL. After the meeting we moved back to our hotel for breakfast and went to our second destination, the Iconic GATEWAY OF INDIA. Our bus went through the Bandra Worli Sea link, this bridge is an outstanding example of brilliant architecture. The metal cables used in the construction can take 2-3 rounds of earth as per the facts. This construction also appeared as one of the mega structures in the Discovery Channel. At night while going from this bridge you can get to view the beautiful waterfront of south-central Mumbai is largely known for its tight traffic all the time, after 1 hour ride we reached our first destination which was the gateway of India, the Gateway of India

The Gateway of India is an arch monument built during the 20th century in Bombay, India. The monument was erected to commemorate the landing of King George V and Queen Mary at Apollo Bunder on their visit to India in 1911.

Built in Indo-Saracenic style, the foundation stone for the Gateway of India was laid on 31 March 1911. The structure is an arch made of basalt, 26 metres (85 feet) high.

The Gateway of India is located on the waterfront at the Apollo Bunder area at the end of Chhatrapati Shivaji Marg in South Mumbai and overlooks the Arabian Sea. The monument has also been referred to as the Taj Mahal of Mumbai and is the city's top tourist attraction.

After roaming around the gateway of India, we spent some more time clicking the signature group pics in front of the iconic Gateway of India, it was largely crowded at the moment, and somehow managed to take some photographs. Then we spend some time in front of the famous Taj Mahal Palace Hotel it is a heritage, five-star, luxury hotel in the Colaba area of Mumbai, Maharashtra, India, situated next to the Gateway of India. Built in the Indo-

Saracenic style. The hotel was one of the main targets in the 2008 Mumbai After that we had a water boat ride, and we enjoyed it. In the evening we decided to spend that evening shopping. So we went to the famous vendors selling their goods on the pavement. The one in Mumbai is patronised primarily by office-goers, working in the nearby corporate and government offices. The goods are generally imitations of well-known brands and available for a fraction of the original's price. Quite a popular place. We managed to purchase some good buys at the best prices. Our language proficiency in Hindi was tested there, and we somehow managed to buy some good products at the best prices. It was a nice experience, near the market there was a book stall selling books at a very affordable price and I got the book titled 40 Rules of Love at a very low price. After completing shopping we head back to our hotel for dinner and stay.

9/12/2023

On the second day in Mumbai, we started our day in Maratha Mandir. It is a cinema hall located in Maratha Mandir Marg, Mumbai, India. It opened on 16 October 1958 and has 1000 seats. It is currently known for holding a record after screening the film Dilwale Dulhania Le Jayenge for 1009 weeks since its release in 1995, on 19 February 2015. As of September 2019, the film has been running for a continuous 1230 weeks. This cinema hall is one of the famous landmarks. The theatre is still in decent shape despite its age. It has a certain old-world charm to it. The crowd will cheer and whistle during the movie which is a plus point and entertaining. The snacks are cheap and the washrooms are maintained. We all were so happy to watch DDLJ because No one here in India will get to watch the evergreen hit Dilwale Dulhania Le Jaayenge from the 90s in an air-conditioned space for a maximum of Rs25. After enjoying and experiencing a next-level theatre experience at Maratha Mandiram, we went to the National Gallery of Modern Arts to view the ongoing Sutr Santati: Then.Now.Next Indian Textiles Exhibition. After getting tickets, we got an entry to the exhibition hall.

The Sutr Santati: Then. Now. Next is a visual feast featuring 125 Indian textiles—each providing insight into the creative hands and minds of over 200 skilled artisans. The four-level exhibition displays stunning textile pieces that have been crafted with processes like hand weaving, embroidery, resist-dyeing, printing, paintings, appliqué and whatnot.

The main attraction includes a Jamdani wall panel that recreates a scene from the Ramayana in intricate detail. As per curator Lavina, it is one of our hero pieces, because weaving is such a geometric process.

Investing three years of hard work, the artisans have created so many layers and perspectives by meticulously embedding the jewellery, the folds in the loosely-draped fabrics, and the facial expressions of helplessness and compassion. It was a very delightful experience to view each handcrafted piece. The security said that photography was not allowed, but we could take pics of exhibiting pieces, so after tooling some pics, we went to outside enjoy catholic architecture We ended up on the 2nd day in Mumbai, shopping at the famous Colaba Market. The Colaba market is quite popular among Mumbai people. People love to collect the best junk jewellery at a very affordable price. Quirky clothes, handicrafts, designer footwear, eyewear, etc., are also very famous in this market. The market is very

large and it takes almost 2 hours to see the whole place, it was very busy in the evening, we couldn't move easily because of the large crowd. Comparing the quality and price with Fashion Street it was very high. I think Colaba is a very happening and charming place in Mumbai. It has something for everyone: shopping enthusiasts, foodies, tourists, architecture lovers, and even people looking for a glimpse of BOMBAY. After roaming around buying some goodies, we went to meet Faisal Vaithery, the well-known Malayali journalist in Mumbai. He was used to be a good friend of our HOD V H Nishad sir. He was currently working on Madyamam Daily a renowned Malayalam newspaper. we had a amazing interaction with Faisal Sur, where he told us about his journalist practices, interests areas, and a bit more about his history and personal experiences in Mumbai. We got quality time to spend with Faisal Vythiri. After bidding goodbye to him, we went to Mumbai's most iconic attraction The MARINE Despite the huge traffic of Mumbai's evening, we somehow reached at Marine Drive by around 8 pm, We had a little time to spend there because we needed to get back to our hotel, as early due to Mumbai's traffic is very high at night. Even though we didn't have much time, we cant leave Mumbai without seeing the queen diomond. The Marine Drive at Night is an otherworldly experience. A city that is constantly on its feet at any given time of the day,

Mumbai is known as the city that never sleeps. Its spirit is indomitable and the pace is hurried. However, the feeling of a cool ocean breeze blowing at night as the lights along the marine drive glitter like stars provides a welcome respite. We enjoyed the marine drive very well and went to our bus to head back to our Hotel.

10/12/2023

This was our last day at Mumbai, we had a train at night to Goa, so we needed to completely watch other energies before leaving the city of dreams. On the third day, we first

went to see the notable and iconic houses of actors in Bollywood. Our Guide show us the residential places of Lata Mangeshkar, Nita Ambani, Salman Khan, Sourav Ganguli, Sachin Tendulkar, Kiara and many more. We ended up in front of Mannat, a residential place of the king of Bollywood Shahrukh Khan, we saw numerous people visiting the gate of Mannath, which is considered one of the famous landmarks of Mumbai. Mannat is located in the posh Bandra West neighbourhood of Mumbai, India. It enjoys a prime location with a stunning view of the Arabian Sea. Mannath is a symbol of luxury and opportunity and hardcore SRK fans can't leave Mumbai without seeing Mannath. The cost of Mannat is currently valued at Rs 200 crores. Mannat is spread across an area of 27,000 sq ft and is a six-storeyed building. After spending some time and clicking pics we went to Mount Marry Basilica, it is a Roman Catholic Church located in Bandra West, Mumbai. It has the highest number of visitors. This is probably Mumbai's most famous church. The church is located on a hill, about 80 meters above sea level overlooking the Arabian Sea. The church were very peaceful after spending some quality time there we went to our final destination The Haji Ali Darga.

It takes half an hour journey to reach the haji ali road, the bus stopped near darga road and we wander a little by confusing about the right road to reach the destination. Finally a 300

meter walk we reached the entry gate of the iconic Haji Ali Dargah. There was a small market surrounded by the entry gate which offers Islamic clothes. An iconic landmark in Mumbai, the Haji Ali Dargah is a tomb and a mosque that houses the mortal remains of Pir Haji Ali Shah Bukhari, a 15th-century Sufi saint. Located against the backdrop of the magnificent Arabian Sea, the dargah seems like a mirage floating on water. It stands on a small isle off the Worli Coast and is frequented by devotees and travellers all year round. Known for its religious significance, and architectural beauty. We wandered around the mystic place and observed the Indo-Islamic architectural beauty of the 700-year-old dargah. After that we went to taste the creams from the most popular Haji Ali Juice Centre, we ate the strawberry cream, which tasted good and was quite expensive. Then we moved to the final stop at Mumbai before heading to Goa, The Dadar. This is a market where many shops are located. Situated at Parel, this place has many readymade and cloth material shops. You should have good bargaining skills to get a good deal. Good place for shopping. After some shopping we returned to our bus and headed to Panvel railway station, Mumbai to move to our final destination GOA.

11/12/2023

After 5-6 hours long journey we reached Madgoa Railway Station in Goa. Our train was delayed almost 3 hours to reach Goa railway station. After heading to our hotel Way

Bay Inn to Check in. We spent our day time there by fresh up and relaxing. In the evening around 7.00 pm, we went to Calangute Beach One of the best beaches in north Goa. The beach is the cleanest and view of the stretch is amazing. The beach was a little crowded at the moment we reached there. The nightlife at the beach was cozy, and the beach offers a lot of cafes and hotels for indulge in goa'n delicacies. Our stay was within one km of the beach and we just walked towards the beach, and we enjoyed peaceful and amazing view of the beach. After spending some quality time at the beach we head back to our room.

12/2/2023

Day two of Goa started with the journey toward Fort Aguada, which was situated in Candolim Goa.

The illustrious Aguada Fort located in Goa, has both historic and architectural significance. Built by the Portuguese over three centuries ago around the early 17th century, this imposing fortress served as an essential defence mechanism against potential enemy invasions aimed at protecting Portuguese territories in Goa. Positioned on Mandovi River's estuary, this structure provided exceptional vantage points of the Arabian Sea's waters through its steady walls and bastions, revealing Portugal's tactical military prowess at that time. A point of interest for many visitors to this fort is its well-built lighthouse, constructed over a century after its initial construction to guide ships safely into port. We were amazed by the blend of European military architecture with traditional Indian construction. We had a very long walk through the fort and we enjoyed the beautiful view of the Arabian sea. Around 1.30 we went to our hotel again for a quick lunch, because we had a

scheduled visit in Goa Raj Bavan and a visit of Goa'n Governor Adv. Sreedaran Pillai sir.

We reached there around 2.00 pm, and after a security check, they took us to the Rajbavan, Goa. It was Raj Bhavan a residential palace and fort situated in Dona Paula, Goa, which serves as the official residence of the governor of Goa. The sprawling 88-acre estate is located on a cape in the Goan capital, Panjim. They warmly welcomed us to the Raj Bavan and offered High tea at the Palace, it was the most memorable memory of the whole trip. Then we went to the church inside the Rajbavan premises, which resembles stories of Dona Paula was a very kind woman who fell in love with a local fisherman of Goa and decided to marry him but her relationship was denied by her father and she fell off the cliff as a result. Today, locals share some haunted stories about Dona Paula and refer to this area as the "lovers" paradise" of Goa. After enjoying the beautiful view of the Arabian Sea from the view glasses, and taking some amazing photos, we went to a quick meet-up with the Goa governor Sreedaran Pillai sir, was not feeling well that

moment, so we only got a few minutes for whole interaction and it was very memorable. He was a very kind and humble man and he told his experiences in writing and administration etc. After having a very quality time he gifted all of us his newly published Oh My Mizoram collection of poems, copies and chocolates. It was one of my favourite memorable days from the whole trip. After that great evening, we went directly to our hotel and had dinner.

13/12/2023

The next day after having breakfast we went directly to Krishnadas Shama State Central Library which was situated in Panaji, Goa.

Krishnadas Shama Goa State Central Library is a State-of-the-art edifice situated near the Panjim bus stand at Patto. It covers a built-up area of 12,100 sq. mts. The Library is named after Krishnadas Shama founder of Konkani Prose and known as the Father of Konkani literature, to recognize his contribution to the field of literature in the 16th century.

The Library has around 2.5 lakh books in different languages like English, Hindi, Marathi, Konkani and Portuguese since its inception. We were amazed by the vast facilities utilised in the library which includes modern facilities like a check-in/Check-Out Kiosk and book Drop Box using RFID Technology. Self-book checkout station was very new to us, they showed us how it works and it was like, if the book doesn't enter it

properly, it will make a beep sound which means you can't take a book away without issuing it. State Central Library was established in the year 1832 and was shifted to the new building in the year 2012.

The staff of the library named madam took us towards all of the 5 floors and to the other special rooms. Each floor was respectively classified for a different genre, age group, fiction and non-fiction, Newspaper Preservation, research materials etc. They were taking all the daily newspapers to preserve them for the future. 100-year-old newspapers can also be seen in the newspaper archives of the library. After spending there up to noon, we went to Baga Beach, which was situated in one of the most popular beaches in North Goa. Baga Beach is located close to Calangute Beach, around 30 Km North of Baga. Being one of the most visited beaches in the North, Baga also offers a vast range of water sports. Many of my friends went to explore the water sports. The sheer variety of water sports activities offered here were mind-blowing. From banana boat rides, bumper boats, water scooters, Jet Ski, dolphin cruises, and parasailing to much more

other options to boost up the adventure vibes. The beach was much more fun than we had expected. The blue ocean and sandy beach illuminated by the sun sparkled crystal and gold. The evenings are full of beach parties with loud music. We had so much fun there and after having a good quality time, around 8.30 pm we returned to our hotel.

14/12/2023

It was our last day on the trip. After packing our stuff, we had breakfast and checked out from the hotel. We only had a limited time to explore because we had a train at 2.30 pm from Madgoa Railway Station Goa. So we went to Panjim Market to spend the available time. It was a large market located in the neighbourhood of Panaji. The market has a history of decades and it was quite popular for its fruit and vegetable market. It was very crowded all the time and the surrounding market was filled with stores and cafe's. After spending some time, we went to a hotel to have lunch. After that we went directly to Madgoa Railway station to return to our homes. It was a memorable trip that I will cherish forever. All the moments we had during the trip were priceless. We got somuch exposure to new places, people, food, lifestyles and many more. This trip will always be the best day of my life.

12/2/2023

The next day after having breakfast we went directly to Krishnadas Shama State Central Library which was situated in Panaji, Goa.

Krishnadas Shama Goa State Central Library is a State-of-the-art edifice situated near the Panjim bus stand at Patto. It covers a built-up area of 12,100 sq. mts. ALIGARH MUSLIM UNIVERSITY VISIT

On February 3rd, 2024, a group of 42 students along with Asst. Prof. Fairroosa K K and Asst. Prof. Muneer CP had visited Aligarh Muslim University, Uttar Pradesh. They had an interactive sessions with the faculties Dr. Haris Kunari, Dr. Mohammad Shuaib, Dr. Mohammad Rafi Alam, and others and thereby visited laboratories with various spectroscopic instruments. Aligarh Muslim University, with a focus on science and technology, likely has X-ray diffraction (XRD) facilities available for researchers and students and had an interactive session about the methods followed up to use the instrument. The spectroscopic laboratory were equipped with various sophisticated spectroscopic instruments including UV-Visible spectrophotometers, Fourier-transform infrared (FTIR) spectrometers, nuclear magnetic resonance (NMR) spectrometers, mass spectrometers, Raman spectrometers, and perhaps X-ray fluorescence (XRF) or X-ray photoelectron spectroscopy (XPS) instruments. The University may also offer spectroscopy-related courses and training programs as part of its academic curriculum, allowing students to gain theoretical knowledge and practical skills in spectroscopic methods. In the undergraduate physics laboratory, they had an opportunity to assist the physics lecturers with basic and important physics experiments like newtons ring and diffraction grating.

TOUR REPORT

INTRODUCTION

Our journey started on January 9 Th 2024 by bus from Kannur to Bangalore before our long trip to Delhi and Manali with 44 students ,one teaching and non teaching staff held.As our train was cancelled due to some railway issues which was a sheer luck as we could also explore the culture and diversities of the fast growing city" Bangalore " .

We reached Bangalore by 5:30 morning on next day and thus could experience the busy morning in the city, hundreds of parrots were flying across the sky which was such a rare sight for us ,houses were too near as we could jump from one terrace to another , small clinics were present here and there ,rangoli's were seen all around, warming prayer sang by a lady from the near by temple ,metro going minute by minute ,the big round idlis served; All felt so exciting and new to us ,by 2:30 we restarted our journey to our destination 'New Delhi' from Yeshwanthpur railway station by our train Yeshwanthpur- Chandigarh express.

The train journey was another beautiful experience a huge difference was felt in the culture and even climate when we passed through each station ; Each station brought new people with new culture .We reached Delhi on January 12th 2024 evening. We met our tour guide who led us to our hotel by causing a huge traffic jam due to us, 47 members and our infinite luggages, however the people was calm as such they were used to these mess ,the first thing we noticed were the place was not clean at all and the temperature was too cold and the city was too busy ,crowded and of course polluted .We started our journey to Manali by tourist bus by night .Had our dinner at dabba which was a open place were many people could eat at once.

DAY-1

OBJECTIVES OF THE VISIT .

- To witness snow for the first time and understand the difference in climate conditions and the natural adaptations of fauna and flora of Himachal Pradesh .
- To witness the longest tunnel in India 'Atal Tunnel'.
- To witness the "vashisht temple " famous for its sulphurous hot water spring.

We reached our first destination Manali by morning around 8 am, on January 13 ,2024 the sights were nearly heavenly ,The dogs and even the birds seemed having a triple coating of fur to survive the harsh cold

VENUE:ROHTANG PASS

We had our breakfast and separated in to small groups and started our journey to "Rohtang pass" snow point in cars wearing the snow dress from one of the shop with numbers which was also new to us each shop had their own specific numbers . The best part of the 2 hr journey was through the Atal tunnel the highest tunnel which was 9 Kilo meters long ! . Actually due the the severe climate change we couldn't see snow as we expected till the Rohtang pass snow point hence we found ourself astonished seeing snow

for the first time in life ; Our inner childishness came out ,we enjoyed hours there without even bothering about the time

VENUE: VASHISHT TEMPLE

We managed to come out and started our journey to next site which was 'Vashisht temple'. Vashisht Temple in Manali is dedicated to sage Vashisht, who is believed to be a teacher of Lord Rama. Set in the Himalayan landscape of Himachal Pradesh in Manali, this temple is all about ancient architecture, natural hot springs, and religious significance which was famous for the sulphurous hot water springs which was believed to have great healing powers. The temple had two hot bath places separated for each gender. It was so pleasing and unbelievable to see hot water spring in such a cold state. Finally by 9 pm we reached back to our hotel and had a long dinner.

DAY -2

OBJECTIVES OF THE VISIT

- To explore and understand the culture and traditions of Buddhism.
- To know about the oldest cave temple in Himachal Pradesh and its surrounding vegetation.
- To study about the flora and fauna of the Dungri Van Vihar. To understand about the birds and animals of Himalaya.
- The objectives to navigate downstream river rapids using a raft.
- Challenging the height by gliding.

VENUE: NYINGMAPA BUDDHIST MONASTERY

It was the 2nd day of our industrial visit. The climate was so cold and for us waking up in the morning became a task. It was our last day in Manali. By 8am we had our breakfast and we started our journey by walk. The street was not much crowded and noisy. We walked so long and we reached first destination point Himalayan Nyingmapa Buddhist monastery Himachal Pradesh at 10 am. Which was one of the most famous monasteries situated in North India. They will not allow us to take pictures unless it is paid. The chirping of birds made the environment so calm. Then we moved to Hadimba Devi temple at 11.30.

VENUE: HIDIMBA DEVI TEMPLE

Hidimba Devi temple is the oldest cave temple situated in old Manali. It is surrounded by cedar forest called Dungri Van Vihar at the foot of Himalayas. The peeping sun made us warm. The horns of the vehicle didn't disturb us because the scenery of Himalayas and the walk through the way surrounded by the coniferous trees was so good. Long trekking towards the temple made us exhausted but the experience was unforgettable. The temple was not much crowded. We took photos in the traditional attire of Manali and took a ride in yak. At 1 pm we moved to our next destination Dungri van Vihar forest park.

VENUE :DUNGRI VAN VIHAR MANALI SANCTUARY PARK

Located in the heart of the mall road, Van Vihar is a municipality run public garden. The park was much famous for the deodorant trees. Different species of birds were observed, which was very different and new to us. Kalij pheasant, Koklass pheasant, Himalayan monal (male & female), Chukar partridge, Bar-headed Goose, Cheer Pheasant (male & female) etc were some of the birds. Each one was different by its color, physical appearance and their body has more feathers than our local birds, it may be an

adaptation to resist extreme cold climate. vocal change was observed ,food habit, flying mode was different from each other. These all were very new to us. We had a chance to see and experience all these due to this IV. We continued our walk through Mall road.

Mall road was crowded .The cold was not extreme at that time. There was wide variety of street foods. We tasted some of them and purchased some stationery items and moved back to Hotel Naveen.

VENUE : BEAS RIVER ,KULU

We had chicken biryani for our lunch at 2.40 pm. At 3.30 pm, we checked out from hotel and went for river rafting in Kulu. It is seen as an ideal place for both amature and mature rafters. We reached there by 4:30pm, then split into two groups and began our journey in two rafts. Few of us was interested in paragliding and they move to the spot by jeep. The Beas River is a river in north India. The river originates from the Himalayas in central Himachal Pradesh, and flows for some 470 Kilometres (290 mi) to the Sutlej River in Punjab. We travelled almost 9km. Everybody was shivering because the water was icy. The whole body got wet. After 30 minutes of joy and pleasure, we reached the river bank. Everybody changed their

clothes, then we had our evening tea. We continued our journey in our bus at 6.45pm. In the middle of our journey, we had our dinner from Jagar Himachal Pradesh. Then started traveling to Delhi at 9.45 pm.

DAY-3

OBJECTIVES OF THE VISIT

- Visit JNU to know more about the higher education and the facilities provided by the university
- To visit historical monuments in Delhi to know about the culture and heritage.

VENUE: JNU

From our room , we went to JNU. It is a major public research university located in New Delhi, the capital of India. It was established in 1969 and named after India's first Prime Minister, Jawaharlal Nehru. This university is well known for applied science and social science research. It is well connected from the three main railway stations, namely New Delhi, Delhi, and Nizamuddin Railway Stations, as well as the interstate bus terminus. In short, JNU is highly accessible from any part of the world. It is about in 1 hour away from our room. It has an area of about 1000 acres and has a long-paved walk, and we were tired of the long walk. The campus was built in ecofriendly. The university includes 18 hostels for boys and girls, and an interesting thing is that all hostels were named after major rivers in India, like the Ganga, Brahmaputra, Godavari, etc. In JNU, every course has a separate building and is called as school. Another unique feature is that every department has its own library. We got a chance to visit the school of environmental studies. Apart from this, another striking feature of JNU is its 10-storied library. We left the university by 1:00pm.

VENUE: LOTUS TEMPLE

After our university visit, we moved ahead to Lotus Temple. We reached there by 2:00pm . Lotus Temple is notable for its construction, and the structure is inspired by the lotus flower. It is one of the most visible instances of biomimicry in contemporary architecture. The temple is quite different from other Indian spiritual sites. It is open to everyone and encompasses all religions. There are staff members who will give you information about the story behind it. The temple is devoted to the Bahai faith. Anyone is free to pray inside as long as they want. From there, we got an opportunity to mingle with people of different cultures. The temple offered a peaceful and refreshing experience. The vast, lush green garden was another mesmerizing sight at the Lotus temple.

VENUE:INDIA GATE

After Lotus Temple visit ,we moved ahead to India Gate.We reached there by 3:30pm .But unfortunately India Gate was closed due to Republic Day parade Practice.We had our lunch at near India Gate.We left there by 4:00 pm.

VENUE:JAMA MASJID

It was our final destination of the day.we reached there around 5:30 pm.Jama Masjid was built by Mughal emperor Shahjahan between 1644 and 1656 at a cost of 1 million rupees. It is the largest mosque in India and one of the three major mosques in the world.Jama masjid street is one of the busiest and most commercialized streets in Delhi. It is famous for a wide range of street foods. We tasted some of them for the first time and explored the streets.Around 9:00 o clock we returned to our room by the means of delhi metro.It was an underground metro transportation which was a new experience to us.

DAY-4

OBJECTIVES OF THE VISIT

- To visit Jamia Millia Islamia to understand the scope of further studies in bioscience and to find out more about its educational and research facilities
- To visit the historical monument of old Delhi (Qutub Minar) to find out about the architectural and cultural heritage
- To visit the Delhi local market to interact with the natives.

7 am morning after reaching Delhi from Manali ,at 9.30 am we headed to our first destination for the institutional visit - Jamia MilliaIslamia (Reached at 11.00 am)

VENUE:JAMIA MILLIA ISLAMIA

Our main aim was Institutional visit. Jamia Millia Islamia is the central university located in New Delhi, India. It was established in 1920, and it became a central university in 1988.JMI was ranked first among all the central universities. The infrastructure of JMI is astonishing.JMI provides opportunities in various courses. We got an opportunity to visit the bioscience department.

We were gracefully welcomed by the faculties of bioscience of JMI. Our group of 44 students and our head Dr Mumtaz TMV along with Prof.Asimul Islam gathered in the conference hall and he gave us information about the admission procedures and facilities of JMI.We visited the advanced infrastructural library of JMI.

Next, we were accompanied by meeting Sir Sageer Ahmad Ansari to visit different bioscience labs. We had visited different biotechnology labs.Dr Gulnaz Thabanum gave us informations about working of different machineries.We got a chance to visit the Animal house facility of the bioscience department.The

visit gave us a clear-cut idea about the procedures and induced a sense of curiosity for research. We headed to our destination at 2pm

VENUE:QUTUB MINAR

After visiting Jamia Millia Islamia we set out our touring to Qutub minar at 2.30 pm. After having lunch we were given tokens to enter there and was asked to not lose them. Qutub minar also known as victory tower, it rises 238 feet and it's the tallest stone tower in India. It

is built on the pattern of Indo-Islamic architecture like the "Minaret of Jam" in Afghanistan. The walls of Qutab Minar were covered in intricate stone carvings, a true masterpiece of Mughal Islamic craftsmanship. The fine details of the sky reaching tower and the ancientness of the complex make Qutab Minar an incredible attraction. Qutab Minar was also attractive in its natural beauty. Here we were able to see many creatures like squirrels, parrots, mynas, etc. that are becoming extinct in our

locality. Gardening is also well maintained in Qutab minar. We headed to our next destination after the spectacular view at 6.30

VENUE:SAROJINI MARKET

We reached Delhi local market at 7pm. Streets and markets are the places to interact with natives and to understand more about the place. Sarojini market gave each one of us a new exposure to different situations. We walked down the streets in groups. Budget friendly shopping, bargaining, trying street foods imprinted the memories of Delhi. After roaming in the local streets we reached our hotel at 9.30pm.

DAY-5

OBJECTIVES OF THE VISIT

- To observe and learn about historical monuments
- To understand intensity of pollution in Agra city

VENUE : AGRA

It's the 5th day of our institutional visits . Everyone woke up around 6:00 am . It was 7 degree Celsius outside Delhi. Everyone got ready at 8:15 am and breakfast served at 8:30 am . After having our breakfast , we resumed our journey to Agra , On the way to Agra , we came across mustard field . Many species of birds and animals such as mule ,monkey , dogs ,cows etc ,were seen during our journey . Around 1:10 we reached hotel and had lunch. After having our lunch , we were taken for

sightseeing. first , we went to Agra fort .Agra fort is a historical fort in the City of Agra in India also known as Red fort build by Mughal emperor Akbar. It has witnessed many historical moments .It served as the main residence of Mughal Dynasty until 1638. In Agra we saw pigeon , parrots, squirrel, mynas etc

VENUE : TAJ MAHAL

After enjoying the beauty of Agra Fort, we set out our journey to Taj Mahal by around 3.45 pm. By 4:00pm we reached Taj Mahal. Taj mahal is an ivory white marble mausoleum on the right bank of river Yamuna. It was commissioned by Mughal Emperor Shah Jahan to house the tomb of his favourite wife Mumthaz(between 1631 and 1648)Photography was not allowed inside Taj mahal. No photo ever does justice to the Taj. It has to be seen. Although in some parts, we noticed that original beauty of the Taj mahal was fading away. Its white coloured marbles were turning yellow. The shining white colour of Taj mahal was faded due to severe air pollution which in turn causes acid rain . The high amount of carbon dioxide, oxides of nitrogen and sulphur etc. in the atmosphere react with the rain water and turn to acid rain. This acid reacts with marble and lost its shining . The Yamuna River is an integral part of the Taj mahal. But the river is also narrowed due to pollution. Hundreds of birds are flying over the river. That sight given us a peace, pleasure and joy.

VENUE : MEENA BAZAR

Around 6:10 pm we reach Meena bazar. It was crowded. The climate was not extreme at that time. There was wide variety of sweet food and peda. Some of us purchased some sweets. It was our last minute sweet shopping. After sightseeing we went back to the bus at 7:00 pm. we reached hotel for refreshment and had food at 8:00 pm. After dinner we shared our memories in the journey. The bus head back to nizamuddin.

INDUSTRIAL VISIT TO ERNAKULAM-2023

INTRODUCTION

We started our journey to kochi at 4:50 AM by train and reached there by 10:00 AM , separated into groups and reached to our first destination which was CUSAT

VENUE 1 : CUSAT

School of Marine Science, a unique institution of its kind in the country was established in 1938 as Department of Marine Biology and Fisheries under the erstwhile Travancore University to cater Marine Science education and research at national levels. The school is presently part of Cochin University of Science and Technology. The School consists of five departments in each discipline of marine science such as atmospheric Sciences, chemical Oceanography, physical oceanography, marine geology and geophysics and marine biology. The School is now celebrating its 80th year of existence.

We had our breakfast, and assembled in the first lab which was Wetland lab, we had a chance to see the PCR , Spectrometer , Mercury Analyser ,DMA-1 etc the researchers working there explained about each devices; They also informed us about the new discovery of a species known to be *Stygartia keralensis* ,which was isolated from Vadakara by their team , then we visited so many labs such as molecular biology lab ,microbiology

lab ,and came across various devices such as viscometer ,weighing balance ,floculator ,turbidity meter ,texture analyser ,muffle furnace and many more devices .

VENUE 2 :CMFRI

The ICAR-Central Marine Fisheries Research Institute was established by Government of India on February 3rd 1947 under the Ministry of Agriculture and Farmers Welfare and later it joined the ICAR family in 1967. During the course of over 75 years the Institute has emerged as a leading tropical marine fisheries research institute in the world. Since its inception, the CMFRI grew significantly in its size and stature and built up adequate research infrastructure and recruited qualified staff. During the first half of the five decades of its existence, the CMFRI devoted its research attention towards the estimation of marine fisheries landings and effort, taxonomy of marine organisms and the bio-economic characteristics of the exploited stocks of fin fish and shellfish.

Our next destination was CMFRI where we had our lunch and was welcomed by a lecture on mussel culture then we visited a large area surrounded with various type of machines such as PCR spectrometer etc ,Then we visited the aquarium with various types of fishes more than 800 then we went through the different labs and museums

VENUE 3 : MARINE DRIVE

Our next site was Marine Drive we had a long walk then by metro we reached to Lulu mall and had our dinner then we reached back to our Hostel Aashirwad by metro at 11:00 pm

VENUE 4 : KUFOS

The Kerala University of Fisheries and Ocean Studies (KUFOS) is an autonomous public funded institution established on 20th November 2010. KUFOS is the first Fisheries University in the country. The headquarters of KUFOS is at Panangad, 12 km away from Kochi city, along NH-47. The University now has a sprawling campus of 67.83 acres in the headquarters at Panangad, 50 acres at Fisheries research station, Puduveypu situated at the Vypeen Island and extensive 10 acres off campus at Thiruvallom near Vizhinjam. The territorial jurisdiction of the University is extended to the whole of the State of Kerala and the Headquarters of the University is at Kochi in Ernakulam District.

The next morning we had our breakfast and went to KUFOS ,we first visited food processing lab which was so interesting, were machines making many food items at a single click was present! then we went to an algae Culturing Lab were in certain temperature the algae were been cultured for use ,then we had our lunch and visited the aquariums ,Museums where all the marine species were classified accurately and then went to Fort Kochi Jew Town and by next morning started our return journey.

CONCLUSION

In conclusion , our tour has been an unforgettable experience filled with joy and knowledge. Our stay with friends for more than a week created a special bond within our group, and the memories we made will stay with us for a long time. Our visits to Jamia Milia Islamiya and Jawaharlal Nehru University at Delhi and CUSAT,KUFOS,CMFRI at Kochi gave-us practical experience and knowledge in different academic fields, and we were inspired by the dedication and enthusiasm of the students and faculty. Exploring various habitats taught us the importance of preserving our planet's biodiversity and in impact of human activities on the environment. Together, we gained new perspective's and deepened our understanding of the world around us. We are grateful for the opportunity to have shared this journey with each other, and we hope that the lessons we learned will guide us towards a more sustainable future.

Department Of Statistics

Sir Syed College, Taliparamba

Field Study Report

2023-2024

DILLI CHALO-

A tour hosted by the Department of Statistics, Sir Syed College, Taliparamba took place from 6 to 15 January 2022. The visit covered several northern Indian sites including Delhi, Agra, Manali and Kullu. The tour comprised of 45 students of 6th semester BSc Statistics and Mathematics accompanied by 5 faculty members. All the students were directed to gather at the Kannur Railway Station at 4:30pm for KCVL ASR EXP. Mansoor NK, Head of Statistics Department, accompanied the students to the railway station and wished them all a safe journey. The students boarded their train at 5:55pm and arrived at Delhi Railway Station at 7am on January 8th. The tour guide met the students at Delhi Station and escorted them to the hotel room for refreshments.

This report outlines the study tour undertaken by the final year B.Sc. Statistics students of Sir Syed College, Taliparamba, to the Indian Statistical Institute (ISI), Delhi. The primary objective of the visit was to gain practical exposure to statistical methodologies, understand the application of statistics in diverse fields, and explore research opportunities.

Institute Profile;-

The Indian Statistical Institute (ISI), Delhi, is a premier research, teaching, and training institute in statistics, mathematics, and computer science. Founded in 1974 Delhi, ISI Delhi has made significant contributions to the development of statistical theory and methodology. The institute boasts world-class faculty, state-of-the-art infrastructure, and a rich research environment.

Objectives of the Visit

- To understand the practical implementation of statistical concepts.
- To explore the various departments and research centers at ISI Delhi.
- To interact with faculty members and researchers to gain insights into their work.
- To learn about career opportunities in statistics.

Itinerary

Day 1:

Arrival at Delhi and check-in to the hotel.

Orientation session at ISI Delhi, introducing the institute's history, structure, and research areas.

Visit to the Computer Science and Statistics Division.

Day 2:

Visit to the Survey Research Methods Division, learning about data collection and analysis techniques.

- Workshop on statistical software 'R' programming and python. Interaction with faculty members specializing in different statistical domains. Visit to the Library and access to research papers and journals. Presentation on research methodologies and career opportunities.

Impact of the Visit

The study tour significantly enhanced our understanding of statistical concepts and their applications. We gained exposure to cutting-edge research and learned about the latest statistical techniques. The interaction with ISI Delhi faculty broadened our career perspectives and motivated us to pursue higher studies in statistics. The study tour to ISI Delhi was a transformative experience that enriched our academic journey. The exposure to world-class research facilities and interaction with renowned statisticians have inspired us to strive for excellence in our field.

This is a sample report and can be customized based on your specific experience. You can add more details about the departments visited, specific activities undertaken, and key learnings. Also, include photographs and other relevant documents as appendice
