15. **CONTRIBUTION TO THE SOCIETY:** The back bone of Kerala economy is remittances from abroad especially from Gulf countries and some apart of Europe. Moreover, the remittance of the Keralites from other states of India also influences the socio-economic conditions of Kerala. Unfortunately, now a day these people are suffering from many concerns in their working environment. Some of them lost their job and forced to come back to their native place. In this regard, the finding of this study will help the Government as well as the society for addressing the needs and problems of returned Nonresident Keralites, safe guarding their rights and rehabilitating them, channelising their expertise and resources and to take measures to simplify the complexities with regard to the availing of schemes offered by NORKA for their betterment of life.
