Query: DVV partner observed that the screenshot provided by the HEI do not aligns with the requirement of the metric 6.2.2; HEI to provide screenshot of Hall ticket generation , Results , Students registration under Examination, screenshots of fee generation receipt , payment receipt under Finance and Accounts ,screen shots of Student Admission and Support and screenshots of administration hosted on institutional website highlighting the name of HEI ; HEI to provide Policy document on e-governance , Annual e-governance report approved by Governing council ; Also HEI to provide bills of purchase of total campus solutions software for the expenditure on implementation of e-governance and also highlighting the same in audited statement duly certified by the CA and head of HEI.

RESPONSE: Regarding the submission for Metric 6.2.2 and have uploaded the requested documents in alignment with your requirements. Below is the comprehensive response detailing the e-governance practices and the supporting documents provided:

1. **Examination:**The institution facilitates student registration, online fee payments, hall ticket generation, and result publication through the **Kannur University portal**. Teacher index and other examination-related activities are also managed via this portal.
2. **Admission**: The student admission process, including application submission, ranking, and allotment, is conducted through the **Kannur University Centralized Application Process (CAP)**.
3. **College Administration**: **TCS (Total Campus Solutions)** software is utilized for managing faculty profiles, nominal rolls, and category, year, and course-wise student databases. This system is also used for gathering student feedback.
4. **MOODLE (LMS)**: We employ **MOODLE** for hybrid classroom management, including question banks, examinations, and other academic activities.
5. **SPARK (Service Payroll Administrative Repository for Kerala)**: The monthly salary payments for college staff, along with other finance management tasks, are processed through **SPARK**, the payroll system managed by the Government of Kerala.

6. **GAIN PF (Govt. Aided Institution's PF Payment System)**: The management of provident fund (PF) contributions and loans is executed through **GAIN PF**, the official portal for PF management provided by the Government of Kerala.
7. **PFMS (Public Fund Management System)**: **PFMS** is used for managing government funds for infrastructure development and vendor payments. This system is hosted by the Govt of India.
8. **Library E-Gate**: We utilize an **E-Gate system** for managing student and faculty library entries through login registers.
9. **Government e-Marketplace (GeM) Portal:** To manage purchase using Govt Fund
10. **System for Online Application for Foreign Travel (SOAFT)**
11. **K-REAP (Kerala- Resources for Education Administration and Planning), Kannur University**
12. **COLLEGE LIBRARY E-GATE :** Software which manages entry in Central library of the college
13. **Book Magic**: The **Book Magic** software is used for library cataloging and managing the book issue register.

The use of above software's helps us to implement *e-governance* as specified by the table below.

MOODLE-LMS (Learning Management System)
Moodle Learning Management System is designed to help students and faculties. Its many tools can be used to provide students with course documents, foster communication among class members and engage students in active learning outside of the classroom. In the contemporary pandemic ridden world, the traditional means of imparting knowledge in institutes of higher education have also been impacted to a considerable extent. In this context, it has become imperative to explore other learning mechanisms, one of which is Virtual Learning Approach. In this scenario, several learning management systems have evolved. Using Moodle, trainers can create and disseminate e- content in four quadrant approaches to their students in a flexible manner. The features of Moodle are personalized dashboard creation, easy to use interface, collaborative tools, automatic alerts and notifications, customized role creation, etc.
