DEPARTMENT OF CHEMISTRY

Model Exam - September 2023
V SEM B.Sc- CHEMISTRY

5B07CHE/PCH- Analytical and Inorganic Chemistry II

Max Marks = 20

Time = 1.5 Hour

SECTION - A

Answer all in one word or one sentence (3 X 1 = Marks)

1. What is Pilling Bedworth ratio
2. Give two examples for coinage metals
3. ----- method is employed in dating geological specimens.
- 4.

SECTION - B

Answer any three in two or more sentences (2 X 3 =Marks)

5. Explain the principle of neutron diffraction.
6. Explain powder metallurgy
7. What are Alloy Steels ?
8. Comment on the applications of thermometric titrations in complexometry.
- 9.

SECTION - C

Answer any two in a short note (2 X 3 =Marks)

10. Write a short note on interhalogen compound
11. Explain the extraction of gold
12. How does furnace atmosphere affect the peaks of DTA curve ?
Explain with a suitable example

SECTION - D

Answer any one in an essay

(1X5 =Marks)

13. Explain in detail the principle, instrumentation, factors affecting and applications of TGA in detail.
14. Explain the different factors influencing corrosion
